

## **Research Interest May 2017**

**Asst. Prof. Dr. Ali Serener**

My research interests are telecommunications; error-correcting codes; wireless communications.

Projects:

- Project 1: Detection of diabetic retinopathy from microaneurysms.
- Project 2: Using time-series analysis for future hyper/hypo glycemia detection.
- Project 3: Meal detection and estimation using CGM data.
- Project 4: Cardiac blockage detection from angiogram images.
- Project 5: Load analyses of base stations of Mersin in 2007.
