## HOW TO INSTALL SAFE EXAM BROWSER (SEB) for Windows

SEB is a browser that disables the option of opening new tab/window, windows task bar and many other applications during an on-going exam by locking down the screen/computer. The students at NEU are required to download SEB and install it on their computer in order to be able to sit for any kind of exam (MT, Final, exemption,...etc) administered by the university. The computers/smart devices without Safe Exam Browser will not be given access for the exams. Please follow the instructions below to install SEB onto your computer:

1. **Type in 'Safe Exam Browser' into the search bar and go to safexambrowser.org.**
